Ashaab Rizvi

DataOps Engineer | Snowflake | SQL | Data Quality | Business Analytics | Delhi, India

ashaabrizvi09@gmail.com linkedin.com/in/ashaabrizvi ashaabrizvi.com

Summary

DataOps Engineer with **4+ years** across data engineering (Accenture) and consulting analytics (Bain) on large-scale **retail and consumer data**. Builds **self-checking, automated delivery pipelines** on **Snowflake and AWS**, so data is validated before it reaches a client. Known for SQL tuning, data quality design and turning KPI movements into clear business stories, using **AI-assisted automation with human review**.

Professional Experience

Associate, DataOps & Business Analytics | **Bain & Company** (Bain Capability Network) Jun 2025 – Present

- Automated **10+ recurring monthly client deliveries** with **Snowflake Cortex Code** (phased, checkpointed, resumable runs) and templated monthly SQL, cutting turnaround by ∼**60%**.
- Designed a **3-layer QC framework** (structural, integrity, KPI variance) with JSON summaries compared across cycles, catching schema drift, nulls, duplicates and missing periods before delivery for **10+ clients**.
- Tuned SQL and stored procedures with query profiles, removing redundant rewrites and cutting **compute cost**.
- Diagnosed KPI swings in sales, orders and customers by segment, fulfilment type and basket size, reconciling sources to separate real trends from data-capture issues.
- Wrote weekly and monthly **client-ready performance summaries** and executive storylines.

Data Engineering Analyst | **Accenture** Jan 2022 – May 2025

- Built and ran **AWS** pipelines (S3, Redshift, AWS Data Pipeline) in Python, handling **20TB+** of data.
- Re-architected S3 data management and tuned ETL and SQL for Redshift, delivering **40% faster queries**.
- Automated ETL and maintenance with **Oracle PL/SQL** and batch scripts for **50% more efficient** operations.
- Secured API calls with token-based authentication to protect the integrity of data loaded into Redshift.
- Earned a **fast-track early promotion** via the Techleap exam and the **ACE Extra Mile Award** (individual); documented SOPs and delivered in Agile sprints.

Technical Skills

Languages:	SQL, Python, PySpark, Oracle PL/SQL
Data Platforms:	Snowflake, Databricks , AWS (S3, Redshift, EC2), Apache Airflow
DataOps & Quality:	ETL/ELT automation, Layered QC, Schema-drift detection, Anomaly checks
Analytics:	KPI and root-cause analysis, Segment and trend analysis, Storytelling, Excel, PowerPoint
AI:	GenAI / LLM integrations, AI-assisted SQL and workflows, Prompt engineering
Tools & Practices:	Git, JIRA, Agile, SOP documentation, stakeholder communication

Certifications

Databricks Certified Data Engineer Associate (Databricks)
AWS Certified Cloud Practitioner (AWS)
OCI 2023 AI Certified Foundations Associate (Oracle)
GenAI Automation Engineer (Accenture)

Education

B.Tech, Mechatronics, Guru Gobind Singh Indraprastha University, Delhi | CGPA: 8.59/10 2017 – 2021

Achievements & Languages

- **Kaggle Notebooks Expert** (Published 5 Gold Medal Python data analysis notebooks)
- **Brown Bag Session 2024 Winner** (Accenture - Monthly Tech Quiz)
- **GK Quiz Winner**, College Fest 2019
- **Tech Quiz Event Host**, College Fest 2020
